PROFESSIONAL SUMMARY

Data Analyst and B.Tech graduate skilled in **SQL, Python, Power BI and Advanced Excel**, with hands-on experience in data cleaning, transformation, validation, reconciliation and KPI reporting across sales, finance and operations datasets. Proven ability to translate business requirements into analytical solutions, documented requirements, test scenarios and dashboards while working in Agile teams. Targeting the **Associate - Platform Services** role at ZS to apply SQL, Python, ETL and data-quality skills.

TECHNICAL SKILLS

Data & Programming: SQL, Python, ETL, Data Cleaning, Data Transformation, Data Validation, Data Reconciliation, Exploratory Data Analysis (EDA), Data Quality Checks

Analytics & Visualization: Power BI, Advanced Excel, Dashboard Development, KPI Analysis, Trend Analysis, Business Performance Reporting

Requirements & Delivery: Requirements Gathering, Business Rules, Process Mapping, UAT, Test Scenarios, Technical Documentation, Root-Cause Analysis

Agile & Collaboration: Agile, Scrum, Jira, Confluence, Stakeholder Communication, Cross-functional Collaboration

EXPERIENCE

Freelance Data Analyst | Self-Employed July 2026 - Present

- Translate client business needs into analytical requirements and deliver data analysis and reporting assignments end to end.
- Clean, transform, validate and reconcile datasets using SQL, Python and Excel to identify trends, gaps and actionable insights.
- Build Power BI dashboards with defined KPIs; document requirements and support UAT and validation before delivery.

Reliance Industries Limited (RC Bidave) | Junior Engineer Intern Jan 2026 - May 2026

- Maintained project documentation, daily reports and status updates, keeping information consistent across project activities.
- Supported project monitoring and issue identification; communicated progress and risks to relevant team members.

PROJECTS

Order-to-Cash (O2C) & Revenue Analytics | SQL, Excel, Power BI

- Queried and reconciled order, shipment, invoice and payment data in SQL and Excel to trace root causes of order delays, cancellations, invoice errors and late payments.
- Defined and analyzed KPIs including order cycle time, fulfillment rate, invoice accuracy, cancellation rate and payment collection rate; built a Power BI dashboard for O2C monitoring.
- Converted analytical findings into process and revenue recommendations for business stakeholders.

Commercial Strategy & Sales Force Optimization | Data Analytics, Power BI

- Cleaned and analyzed pharma sales, customer, product and territory data to identify revenue gaps, high-value customer segments and underperforming territories.
- Diagnosed target-vs-actual shortfalls through root-cause analysis and designed a sales-force allocation framework using customer potential, territory performance and product mix.
- Defined KPIs for Target Achievement, Sales Growth and Rep Productivity and built Power BI reporting for performance tracking.

Customer Onboarding & KYC Process Optimization | Business Process Analysis

- Mapped the end-to-end onboarding and KYC workflow to identify bottlenecks, documentation gaps, manual steps and verification exceptions.
- Defined business rules and a streamlined To-Be workflow; wrote UAT scenarios for success, verification failure, missing documents and exception cases; defined turnaround, rejection and exception-rate KPIs.

Procure-to-Pay (P2P) Process Improvement | Process & Operational Analytics

- Analyzed the P2P lifecycle from purchase request to payment to identify approval bottlenecks, invoice exceptions and manual activities.
- Designed a To-Be workflow with approval logic, business rules and exception handling; defined KPIs for PO cycle time, invoice processing time, invoice exception rate and payment cycle time.

EDUCATION

B.Tech Civil Engineering - Tatyasaheb Kore Institute of Engineering and Technology, Warananagar 2023 - 2026

Diploma in Instrumentation Engineering - Government Polytechnic, Karad 2020 - 2023

SSC - Maharashtra State Board 2020
